Setouchi Rikuun Co., Ltd.

Connecting our region's future through people and goods.

COMPANY GUIDE

We are professionals in land transport.

September 2026 edition

Reliable transport, powered by people.

Founded in 1958 and rooted in our region. With locations across Japan and our own fleet, we keep our customers' logistics moving.

OUR PURPOSE

Cargo is carried by people.
So we help our people grow.

Through general freight transport, LTL shipping, vehicle maintenance and more, we support our customers' businesses and everyday life in our communities. We value both the equipment that makes transport safe and the effort we put into developing our people.

Message from the President

Under our motto of “Safety, Reliability and Speed,” we have built relationships with many customers and expanded our network across Japan. We will continue to value people and contribute to local communities through logistics.

Toshitsugu Kusunoki, President & CEO

Transport options to fit your cargo.

Tell us your volume, temperature range, delivery schedule and frequency, and we will work out the right way to ship it.

General Freight Transport

For regular deliveries and chartered transport

From small to large trucks, we cover everything from local delivery to long-haul transport. We propose scheduled, spot or chartered services to suit your requirements.

Less-Than-Truckload (LTL) Shipping

For small-lot and low-volume shipments

We consolidate cargo from multiple customers on a single truck. Using the network between our locations, we can handle small-lot and low-volume shipments too.

Cargo types

Pallets and cases, daily goods, food, building materials, machine parts and more.

Temperature ranges

Ambient, chilled and frozen. Tell us what your cargo requires.

Vehicles

2-ton, 4-ton, 10-ton trucks and more, including wing-body and refrigerated trucks.

* Availability and vehicle arrangements are confirmed after checking your cargo, route, date and other conditions.

8 locations keeping Japan moving.

Centered on our Takamatsu head office, we support everything from local pickup and delivery to nationwide transport.

G-Mark = Certified Safety Excellence Office (Japan Trucking Association)

Certification status based on our official CSR information (confirmed September 22, 2026).

Locations: setouchi.group/locations-en/

Safety, built on in-house maintenance and operations.

Vehicle Maintenance Service Center

Opened in 2021. On a 9,910 m² site, we handle maintenance, inspections and shaken (mandatory vehicle inspections) for our own fleet and for outside customers.

- 4 shaken lanes
- 20 m lane
- Twin lifts
- Overhead crane

01 Records and data for safer driving

Every vehicle is equipped with a dashcam. Together with operation management using digital tachographs and other tools, this supports safe transport.

02 Vehicle management through maintenance

Using our own maintenance facility, we keep track of each vehicle's condition. Regular inspections and servicing support our daily operations.

03 Safety training that develops people

Initial driver training, ride-along coaching by senior staff, safety seminars and more — training matched to each person's experience.

Social initiatives

With G-Mark certified sites, we also pursue health and productivity management, the SDGs and work-style reform.
