Interview

Freight is carried by people.
That is why we want to be
a company where people grow.

President & CEO **Toshitsugu Kusunoki**

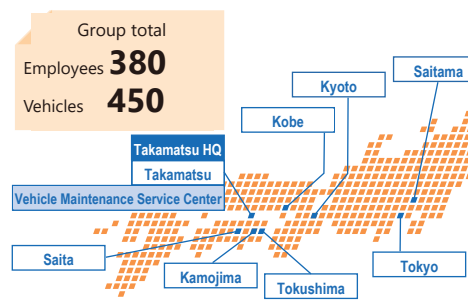

Since our founding, we have been blessed with and supported by many customers, and we have expanded our network from Shikoku to the Kansai and Greater Tokyo areas. I believe this came from the encounters and experiences we gained by coming up with ideas and taking on new challenges. That is why we value people and want to help them grow.

Setouchi Rikuun Co., Ltd.

As the core company of the Setouchi Group, Setouchi Rikuun carries out logistics with the aim of contributing to the growth of regional industry, the economy and culture through the movement of people and goods. From small to large vehicles, and from ambient to chilled and frozen cargo, we can meet any transport need. Under our motto of "safe, reliable, careful and speedy," we have earned the deep trust of local communities as logistics professionals since our founding in 1958.
